DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jordan Bodner on 12/5/05.

The application has been amended as follows:

- Claims 8 and 9 will be cancelled.

Terminal Disclaimer

The terminal disclaimer filed on 6/16/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of patent 6,081,690 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 1 – 7 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to teach a method of compensating for station bias in a remote audience survey system comprising the steps of measuring durations during which a portion of the predetermined signals are received by the survey system, combining the signals to form a characteristic detection statistic for one radio station and adjusting a sensitivity level to provide an amplitude threshold for one radio station in response to said characteristic detection statistic to compensate for station bias prior to collecting the survey data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
